

FOR WHOM? FOR WHAT?

Organic silica is an active element which is generally beneficial for everyone's health, but essential for sports men and women, convalescents and those suffering from tiredness or the elderly. Silicium G5 helps restructure cellular membranes, aiding resistance to phospholipids' peroxidation and the creation of free radicals.

It is well known that our body's natural supply of organic silica decreases between birth and adulthood, although it is an essential trace element for the proper performance of our organism.

Recent studies have acknowledged that silica is absorbed into the metabolism of phosphorus and calcium. It can gradually eliminate the calcium deposits that damage vascular walls, and instead help bones absorb this calcium. It helps re-establish our connective tissues' elasticity; helps maintain joint flexibility so we can enjoy a much younger and healthier body.

ORGANIC SILICIUM G5 IS RECOMMENDED FOR:

- ✓ Maintaining flexible joints.
- ✓ Supporting and protecting cartilage.
- ✓ Bone strengthening and calcium assimilation.
- ✓ Keeping tissues healthy.
- ✓ Ligament protection and tissue plasticity.
- ✓ Keeping hair and nails healthy.
- ✓ Fracture consolidation, demineralization.
- ✓ Skin flexibility and youthfulness.
- ✓ As a spray it is helpful for skin against burns and sun stroke.
- ✓ Delaying the effects of ageing.

SILICON IN ITS ORGANIC FORM
Highly beneficial mineral
for the whole
body's metabolism

DIRECTIONS FOR USE:

Oral Use: 10 ml 3 times a day, 10 minutes before meals.

External Use: apply gel to the affected areas. Gently rub on a layer and wait until it is absorbed. After a few minutes, massage to help absorb the rest. For even better results, apply with a compress. For more information, please contact us.

HEMOSIL EXTERNAL USE GEL

Haemorrhoids care and hygiene

Hemosil is an externally used gel for haemorrhoids, infection, split or itching skin around the anal area, that keeps it clean, hydrated and soothed. Contains and eases itching and irritation, enhancing relief of localised or specific anal soreness. Refreshing and effective in the immediate and long term. Hemosil combines witch-hazel and fifth generation organic silica in a non-greasy gel in an easy-to-use 100 ml. tube.

With Witch-Hazel and Organic Silica

SORIASIL DAILY SKIN CARE

Itchy or irritated skin with tendency to peel

Recent scientific studies acknowledge the important action of silica in the synthesis of collagen and elastin of the skin and providing the structural key in cartilage glycosaminoglycans, which improves cutaneous regeneration and the cartilage function of resisting compression. Vapourise frequently over the affected areas. To achieve best results it is also highly recommended taking Silicium G5 liquid, 10 ml, three times a day. Experience and studies acknowledge an improvement in these types of problems in 80% of cases.
